Buying hot tubs can be a large investment – so you want to purchase one that is known for durability, entertainment and value.

Arctic Spas Red Deer carries lines of hot tubs that are known for their high quality craftsmanship and technological features. Arctic Spas® hot tubs are made in Canada, so they are built to withstand extreme temperatures – even below zero temperatures that we're often used to in Alberta.

Experience Therapy Air

Hot tubs from Arctic Spas Red Deer feature a gentle water therapy system called Therapy Air. Users can take pleasure in a relaxing, subtle massage while they soak. Heated air moves

throughout the water in the hot tub giving it a more relaxed vibration. Therapy Air also incorporates aromatherapy for those who want to surround themselves in calming scents.
